The untimely death of Representative Mink, and the political gamesmanship after her death are the real reason's for my candidacy in this special election. I may not have agreed with her on all issues, but I do have a real respect for her passion, her principles, and her compassion for those who felt powerless. My first stab at running for office is a tribute to making a principled stand against political expediency.

"You will win with Yuen" by

Preventing any semblance of incumbency for the highly probable second special election. I will not run in that election as I hope to have succeeded in ensuring an even playing field for any contender hopeful.

Ensuring rehiring of Mink's staff at least till the finish of her original term. This is only fair and causes the least disruption for those in the 2nd Congressional District.

A vote for Timmy Yuen will mean that his salary for the remainder of Patsy Mink's term will go to her worthy charity, Patsy Mink Education Fund for Low Income Women and Children.

I am blessed with my wife Pamela, librarian at Manana elementary school and my ten year old son Philip Andrew. I am also currently employed at Johnson Controls, Inc. I attended Ala Wai Elementary, Washington Intermediate, Iolani, and graduated with a BA in Economics at UH Manoa.
